

## **IASB Whistleblower Complaints**

To date there have been five whistleblower complaints at IASB; they have been thoroughly investigated by the Brick Gentry Law Firm and outside interviewers. A final report is expected in the coming weeks covering a wide array of issues.

The interviewers spoke with every employee who filed a complaint, and all agreed that they feel secure after filing the complaint, and that they have not been faced with any retaliation for bringing issues to the attention of organization leaders. The whistleblowers have stated that they would prefer to remain anonymous but are willing to provide additional information to the committee upon request.

The dates of the whistleblower complaints were:

1. Jan. 21, 2010
2. Feb. 15, 2010
3. Feb. 16, 2010
4. Feb. 23, 2010
5. Not dated – Believed to be end of February or beginning of March
